PROJECTS

Food Ordering App([Project Link](#))

Dec 2023

Technologies: [MaterialUI](#), [CSS Flexbox](#), [ReactJs](#), [NodeJs](#), [MongoDB](#), [ExpressJs](#), [Redux core](#)

A food ordering application with two roles- restaurant owner and user, where a restaurant owner can do crud operations on restaurants and food items and a user can add food items to cart and place order. Integrated Payment Gateway too. And also I have implemented theming.

Hotel Booking App([Project Link](#))

Apr 2023

Technologies: [MaterialUI](#), [ReactJs](#), [NodeJs](#), [MongoDB](#), [Express](#), [Redux core](#)

A hotel booking application with two roles - admin for creating the hotels in particular cities and customer to book the rooms in hotels. I was more into logical implementation during this project.

NxtTrends ([Project Link](#))

Aug 2022

Technologies: [HTML](#), [CSS](#), [CSS Flexbox](#), [ReactJs](#)

A responsive website for doing online shopping, only client side.

[Username - rahul, Password - rahul@2021]

Emoji Game ([Project Link](#))

Oct 2022

Technologies: [HTML](#), [CSS](#), [CSS Flexbox](#), [ReactJs](#)

A simple stress-buster game where a user plays with emojis and scores points. Here you have to select different emoji each time the page renders.

Portfolio([Project Link](#))

Jan 2024

Technologies:[HTML](#), [CSS](#), [CSS Flexbox](#), [NextJS](#)

I have built a portfolio with NextJS and even you can contact me through mail. This is like my visual Resume with my skills, projects, work and all.

EXTRA-CURRICULAR ACTIVITIES

Developing Portfolio **full stack** projects

Teaching Friends on the concepts of web Development
